PROFILE

Motivated Software Engineering student. Eager to gain hands-on experience, work on real projects, learn new things, and improve development skills.

EDUCATION

Mahidol University   Present
Bachelor of Science in Information and Communication Technology (International Program)
- Major in Software Engineering
- Third-year student

Udonpittayanukoon School, *High-School*   2017 – 2022
- High School, Science–Mathematics Program

SKILLS

- **Languages:** English, Thai
- **Programming:** C, Python, Java, JavaScript, TypeScript, Linux
- **Web Development:** HTML, CSS, React, Node.js, Express
- **Database:** MySQL, SQLite
- **Tools:** Git/GitHub, VS Code, Figma, Canva, Postman, Bruno
- **Methodologies:** Agile (Scrum concepts)

PROJECTS

Built a full-stack web application named "Friendfy"
Developed a full-stack web application named "Friendfy" as part of an academic project, using HTML, CSS, JavaScript, Node.js (Express), and MySQL, where users can view and join events, and administrators can create, edit, and manage event information.
Project Link: https://github.com/Bnmpp/Project-WebDev/tree/main 🔗

Designed a web application interface using Figma
Designed a web application UI/UX prototype using Figma for an academic project. Included user authentication, profile management, event participation, real-time chat, reservations, and an admin management interface.
Poject Link: Figma 🔗

Information Systems & Software Development – Friendfy
Designed business process models using SAP Signavio (BPMN) and implemented business modules in Odoo (Sell Online, Subscription, Accounting) to support premium services and reservation payments. Created UI prototype and system design using Figma.
Project Demo : Video Demo 🔗
